Sherpa Air MRO Earns Garmin Certification, Expands Avionics Capabilities
South Carolina-based MRO joins Garmin's global network of authorized avionics partners

Georgetown, SC – Sept. 9, 2025 – Sherpa Air MRO (Crucial Aero LLC. CRS: 9C2R788C) has been named a **Garmin Authorized Service & Installation Center**, joining Garmin's select global network of avionics partners. The certification authorizes Sherpa Air MRO to sell, install, and service Garmin's full line of integrated flight decks, GPS navigators, ADS-B solutions, and advanced cockpit systems.

"Garmin's certification is a strong endorsement of our technical capabilities and our commitment to delivering world-class avionics support," said **Paul Handakas, President at Sherpa Air MRO**. *"We are excited to bring Garmin's cutting-edge technology and trusted solutions to our customers."*

The certification marks a significant milestone in Sherpa Air MRO's growth strategy, expanding its avionics expertise while reinforcing its position as a trusted maintenance and modernization partner for business and general aviation operators. Conveniently located between **Charleston and Myrtle Beach, South Carolina**, Sherpa Air MRO is well-positioned to serve aircraft operators along the **East Coast**.
